- ◆ STREET DESIGN
- ◆ BRIDGE DESIGN
- ◆ TRAFFIC CONTROL PLANS
- ◆ THOROUGHFARE MASTER PLANNING
- ◆ PEDESTRIAN FACILITIES
- ◆ COST ESTIMATING
- ◆ CONSTRUCTION PHASE SERVICES

Dartmouth Drive Extension

No project is too big or too small for Mitchell & Morgan, LLP. Whether your project deals with a traditional engineering problem or a more complicated situation, Mitchell & Morgan approaches every project by providing the client cost effective, creative & timely solutions to achieve the objectives. The firm's success has primarily been due to the ability to offer clients expert analysis based on extensive knowledge of City codes and a thorough background rooted in the civil engineering industry.

CURRENT TRENDS

Mitchell & Morgan, LLP prides itself on keeping current on all applicable local, state & federal regulations regarding transportation facility design. Whether it be a typical major arterial design, traffic calming devices or pedestrian facilities, the Mitchell & Morgan team consistently provides creative design solutions in an ever changing regulatory environment.
