

# Utilities

We Provide ...  
*Solutions for a better tomorrow*

Mitchell & Morgan provides full planning and design services for water, wastewater and storm water utility systems. As a team we are well versed on various local, state and government regulations allowing us to provide our clients with creative solutions in the following areas:

- ◆ WATER MASTER PLANNING
- ◆ WASTEWATER LINE DESIGN
- ◆ WATERLINE DESIGN
- ◆ COST ESTIMATING
- ◆ WASTEWATER MASTER PLANNING
- ◆ CONSTRUCTION PHASE SERVICES
- ◆ UTILITY RELOCATION DESIGN

*Texas A&M University Water Relocation*

No project is too big or too small for Mitchell & Morgan, LLP. Whether your project deals with a traditional engineering problem or a more complicated situation, Mitchell & Morgan approaches every project by providing the client cost effective, creative & timely solutions to achieve the objectives. The firm's success has primarily been due to the ability to offer clients expert analysis based on extensive knowledge of City codes and a thorough background rooted in the civil engineering industry.

### CURRENT TRENDS

Mitchell & Morgan, LLP prides itself on keeping current on all applicable local, state, federal, & TCEQ regulations regarding utility design. Whether it be a typical Waste water line design, or utility relocation design, the Mitchell & Morgan team consistently provides creative design solutions in an ever changing regulatory environment.
